

Company Profile

SICIL is a pioneering Company involved in **Marketing, Sales & Service** of Instrument for the **Life Science** Community, be it in **Academics, Research, or Industry**.

SICIL holds a high reputation among Customers & Principals, with a **Pan-India** presence and a cumulative **Experience of 4 Decades**. Understanding of **Customer requirements** through engaging discussions and offering **Right Solutions** with correct choice of instrument, is of utmost priority in the Company. With a forte of representation of leading **World Class Principal** Manufacturers, the Company constantly endeavors to **Exceed Expectations** in Customer Support.

SICIL is managed by team of highly qualified and experienced **Technocrats** and the Company boasts a team of well-trained **Engineering Personnel**, who share extreme passion for **Customer Commitment**.

SICIL is backed by a sound **Quality Management System** and a good backend **Enterprise System** to efficiently support Customers and deliver top Quality in Products, Solutions & Services.

The **SICIL's** indigenous **manufacturing** program under the **Jaguar** Brand is involved in production of its own range of **Analytical Instruments**, primarily catering to the enterprising fields of **Food, feed & environment**.

Striving to provide valuable **Life** to **Science**,
so you can provide valuable **Science** to People's **Life**...

SPECIAL INSTRUMENTS
SKILLED PERSONNEL

Foreign Principals

Pharma & Biotech

Fermenters & Bioreactors- Lab to Production Scale for Microbial & Cell Culture with Standard to Custom design for MABs, Vaccines, Enzyme, Ethanol, Probiotics, Nutraceuticals, Biopesticides, Biofertilisers. Specialized Reactors - Photo illumination, Fixed Bed, Fluidized Bed, Air Lift, High Pressure & High Temperature, Surface Cultivation. Accessories - CIP systems Process Vessels - Media, Dosing, Harvesting Hygienic Components- CIP spray balls, Diaphragm Valves, Pumps, Powder Handling - Cup Hermann for Sterile Powder Transfer, Mixing - Inversina 3D Tumbler Mixer.

UNITED STATES

Ultrasonic Liquid Processors -Sonicators / Atomizers Process microliters to liters in batch & continuous mode Application: Cell Disruption, dispersing, blending, cleaning, sample preparation, homogenization, emulsification and atomization.

CHINA

Homogeniser (Rotor-Stator Technology) - for dispersion, homogenisation, emulsification and mixing of low to high viscosity medium, provide high shear force, different rotor-stator types, used in Biomedicine, food, chemical, other special material applications.

UNITED STATES

UV Trans Illuminator and Gel Imaging / Documentation System, Laboratory Shakers, Stomacher, Dissolution tester, Friability tester, Tablet hardness tester, Tap density tester, Disintegration tester.

CHINA

CO2 Incubator (Air & Water Jacketed), Multi Gas Incubator, Trigass Incubator, Biosafety Cabinet (Class II Type A2, Class II Type B2), Clean bench, Cytotoxic cabinet, Water Purification Systems (ASTM Type I, ASTM Type II, ASTM Type III, CAP/CLSI Type I), Freezers (Medical & ULT), Pharmaceutical Refrigerators, Centrifuges (Refrigerated & Non-Refrigerated), PCR Thermal Cycler (Real Time) for General Laboratory Use..

Biomedical

Fluidics Intelligently Automated

UNITED STATES

Flow Injection Analyzer and Sequential Injection Analyzer - Automated Analytical Instruments - FIA - Models - FIALyers 1000, FIALyser flex & Multichannel, Software- FIAsoft, SIAssoft, Custom **Detection Methods** - Colorimetric, Fluorometric, Amperometric, Potentiometric, Photometric **Accessories** - Flow cell, Gas diffusion, Pumps, Heaters, Digestion, Auto dilutor & Autosamplers **Consumables** - Columns & Membranes, Tubing & Connectors **Application** - Agricultural, Environmental, Pharmaceutical Research & Education **Methods List** - Alkalinity, Ammonia, Chloramine, Chloride etc.

Environment

Own Manufacturing (Jaguar Brand)

Food & Feed, Environment

Kjeldahl Distillation Unit, Block Digestion Unit (Kjeldahl) for Nitrogen & Protein Analysis. Accessories - Scrubber / Acid Fume Neutralizer, Chilled Water Circulator for Kjeldahl Soxhlet Fat Extraction Unit for Fat Analysis, Reflux COD Digestion Unit for COD analysis in Water & Waste water.
